

Rise Against, Blood To Bleed

This place rings with echoes of
Lives once lived but now are lost
Time spent wondering about tomorrow
I don't care if we lose it all tonight
Up in flames, burning bright
Warming the air of the world

I don't love you anymore is all I remember you telling me
Never have I felt so cold
But I've no more blood to bleed
'Cause my heart has been draining into the sea

Steps, I take in your footsteps
Aren't getting me closer to what is left
Of the dreams of what I once claimed to know
Within my bones this resonates
Boiling blood will circulate
Could you tell me again what you did this for?

I don't love you anymore is all I remember you telling me
Never have I felt so cold
But I've no more blood to bleed
'Cause my heart has been draining into the sea

Still I wait
With a hope inside of me (inside of me)
So still (so still) I wait (I wait)
Until again we meet
Until again we meet

Within my bones this resonates
Boiling blood will circulate
Could you tell me again what you did this for?

I don't love you anymore is all I remember you telling me
Never have I felt so cold
But I've no more blood to bleed
'Cause my heart has been draining into the sea

Still I wait
With a hope (so still) inside of me (I wait)
So still (a hope) I wait (inside of me)
