

# Rita Ora, Radioactive

Palms to the sky  
We unite  
I feel it, I feel it, feel feel it  
We rise tonight

I'm checking you out in your sweet desire  
I'm coming over to make you mine  
It's a crime boy, you're so fine  
I'm taking you out, boy, it's a green light  
I'm glad you came over, it was about time  
It feels right, boy you're so fine

This goes radioactive  
Drop the ball, let me feel the beat  
This goes radioactive  
Drop the ball, let me feel the beat

Palms to the sky  
You know, I feel it, I feel it, feel feel it  
We rise tonight  
Palms to the sky  
We unite, I feel it, I feel it, feel feel it  
We rise tonight

Moving on me as the world ends  
This nuclear heat is a beautiful air  
You might not live to tell

This goes radioactive  
Drop the ball, let me feel the beat  
This goes radioactive  
Drop the ball, let me feel the beat

Palms to the sky  
You know, I feel it, I feel it, feel feel it  
We rise tonight  
Palms to the sky  
We unite, I feel it, I feel it, feel feel it  
We rise tonight

Palms to the sky  
You and I  
Palms to the sky  
You and I  
Palms to the sky  
You and I  
We rise tonight

Palms to the sky  
You know, I feel it, I feel it, feel feel it  
We rise tonight  
Palms to the sky  
We unite, I feel it, I feel it, feel feel it  
We rise tonight

We unite, you and I are right tonight...
