## Rita Ora, Radioactive

Palms to the sky We unite I feel it, I feel it, feel feel it We rise tonight

I'm checking you out in your sweet desire I'm coming over to make you mine It's a crime boy, you're so fine I'm taking you out, boy, it's a green light I'm glad you came over, it was about time It feels right, boy you're so fine

This goes radioactive Drop the ball, let me feel the beat This goes radioactive Drop the ball, let me feel the beat

Palms to the sky You know, I feel it, I feel it, feel feel it We rise tonight Palms to the sky We unite, I feel it, I feel it, feel feel it We rise tonight

Moving on me as the world ends This nuclear heat is a beautiful air You might not live to tell

This goes radioactive Drop the ball, let me feel the beat This goes radioactive Drop the ball, let me feel the beat

Palms to the sky You know, I feel it, I feel it, feel feel it We rise tonight Palms to the sky We unite, I feel it, I feel it, feel feel it We rise tonight

Palms to the sky You and I Palms to the sky You and I Palms to the sky You and I We rise tonight

Palms to the sky You know, I feel it, I feel it, feel feel it We rise tonight Palms to the sky We unite, I feel it, I feel it, feel feel it We rise tonight

We unite, you and I are right tonight...
