

Rival Schools, So Down On

You can blame this fall on some
invitation to your friend
when she promised that she'd come
you could wait until the end
Now you want it all too soon
just to calm what's on your mind
until she calls it off again
to the wayside

Yesterday is left behind
it's as close as you might get
until she calls you all the time
she calls so you can get
down

on

Not adjusted to begin
as you lay with your concerns
are we better off as friends ?
either way it burns

Now you want it all too soon
just to calm what's on your mind
until she calls it off again
to the wayside

Yesterday is left behind
it's as close as you might get
until she calls you all the time
she calls so you can get
down

on

so good so far
you said I'm lost instead
but that's all in your head

Yesterday is left behind
it's as close as you might get
until she calls you all the time
she calls so you can get
down

on

so good so far
