## Rivers Cuomo, I'll Think About You

I've been standing here for a long, long time Thinking 'bout the fight we had, oh Now maybe we're all through Or we've just begun But there's just one thing I need to say Everywhere I go, And everything I do, No matter who's I am I'll think about you It may have been a game It might have hurt a lot But no one put you in the ring, oh And so we kissed goodbye, You know I love you true You know I love playing with you, oh Everywhere I go, And everything I do, Ten years down the road Ten girls under my shoe No matter who's I am I'll think about you Everywhere I go, And everything I do, Ten years down the road Ten girls under my shoe No matter who's I am

I'll think about you
