

# Riverside, River Down Below

I'd like to tell you  
what I dream about  
I'd like to say  
how much I miss you  
but I say sorry  
o come my darling  
come to me  
I'm sorry  
I'm dying on the tree

I'd like to tell you  
that it's not too late  
I'd like to say that I won with myself  
but I say sorry  
o come my darling  
come to me  
sorry, I'  
m dying on the tree  
with the world beneath my feet

so you found me after all  
pile of rocks  
and 2 nailed boards

linger beside me  
you're all I have left  
tell me the story of your life  
there's so much that  
I have got to find out  
until the next darkness arrives  
I do not have too many requirements  
only one wish  
before you go  
and before I crumble back into the dust  
take me to the river down below  
take me to the river down below

stay  
sit down  
and get some rest  
since you came across my place

linger beside me  
you're all I have left  
tell me the story of your life  
there's so much that  
I have got to find out  
until the next darkness arrives  
I do not have too many requirements  
only one wish  
before you go  
and before I crumble back into the dust  
take me to the river down below  
take me to the river down below

and before I crumble back into the dust  
and before I crumble back into the dust
