

Rj Helton, Forgive

This pain goes on
Deep inside my heart
Changing all that I knew
This feels so wrong
I'm tired of being angry
But tell me what do I do
I feel betrayed and completely over come
This is the hardest thing I've ever done

I need to find away to forgive
The way that you've forgiven me
To understand to know that your plan
Is something that I don't always see
I need to find a way to forgive
Like you've forgiven me

We're all afraid
Silenced by the fear
Of the mistakes that were made
I call I pray
Lord help me to remember
That everybody breaks
Fill me with your spirit and your words
Give me the heart to heal and not to hurt

I need to find away to forgive
The way that you've forgiven me
To understand to know that your plan
Is something that I don't always see
I need to find a way to forgive
Like you've forgiven me

Forgiven me

Ohh

Ohh ohh

I need to find away to forgive
The way that you've forgiven me
To understand to know that your plan
Is something that I don't always see
I need to find a way to forgive
Like you've forgiven me

Ooo

Forgiven me
