

Road Trip's Over, Romance On The Phone

Are you there?

I cannot hear you...

The time has come to realize,
That everything is said and done
refren:

All I know she's my romance on the phone

Ever since she's gone

(Will I ever make it real?)

Maybe it's time to forget of our past,

But I won't stop thinking of you

refren:

All I know she's my romance on the phone

Ever since she's gone

(Will I ever make it real?)

Let me hear your voice

Don't hang up on the phone

I'm calling you one last time

Please don't cry

And close your eyes

I'll keep you in my heart

refren:

All I know she's my romance on the phone

Ever since she's gone

(Will I ever make it real?)
