

# Roadrunner United, Blood & Flames

You thrust the knife into my side with words you say you

realize

That I came to speak of what I see no matter what you do to me

I stand --- no compromise --- I feel --- prepared to die

Falling, our lives were led astray when we fell from grace

Calling, your life won't be denied when washed with blood and

flames

You thrust the knife into my side with words you say you

realize

I stand --- no compromise --- I feel --- prepared to die

My life for yours, this raging war, as I stand in the midst of

darkness screaming

Falling, our lives were led astray when we fell from grace

Calling, your life won't be denied when washed with blood and

flames

My life for yours, this raging war, as I stand in the midst of

darkness screaming

We know our roots, we know the truth, the strength of our

foundations

I stand --- no compromise --- I feel --- prepared to die

Falling, our lives were led astray when we fell from grace

Calling, your life won't be denied when washed with blood and

flames

My life for yours, this raging war, as I stand in the midst of

darkness screaming

We know our roots, we know the truth, the strength of our

foundations
