

# Rob Halford, Light Comes Out Of Black

[Halford]

Innocence is calling  
Raptures in the past  
Craving for salvation of the mind

Serenity is calling  
Seeking only truth  
Vision block forever left behind

Light comes out of black  
Stand and face the fear  
Give him eye too eye  
Walk the walk right here

Images unraveling  
Saw through the disguise  
Crystal clear and shining through and through

Liberation traveling  
Bringing down the wall  
Universe waking coming too

Light comes out of black  
Stand and face the fear  
Give him eye too eye  
Walk the walk right here

Let the fight begin  
Watch the power soar  
Work the magic now  
Free forever more

Now feel the light  
Lifting up and rising all alive  
Now feel the light  
Keep the faith inside and i'll survive...
