

Rob Zombie, American Witch

Body of a monkey and the feet of a cock,
Dragged from her home on the killing rock,
Black dog dying on the weather vain,
The Devil's in a cat and the baby's brain,

[Chorus]

The End - The End of The American,
The End - The End of The American,
The End - The End of The American Witch,

Alone on the hill and ready to die,
Cancer of darkness - blacken eye,
The mark of the wolf and the sign of the calf,
Angels bleed down above the raft,

We all pray for 20 innocents,
We all bow down 20 innocents,
We all hang high - 20 innocents,
We all accused - 20 innocents,

[Chorus]

Do you want to know where their dreams come from?
Some showed the faith and some showed none.

We all pray for 20 innocents,
We all bow down 20 innocents,
We all hang high - 20 innocents,
We all accused - 20 innocents,

[Chorus]

Do you want to know where their dreams come from?
Some showed the faith and some showed none.

The End - The End of The American Witch
