

# Robben Ford, My Love Will Never Die

You've done me wrong for a long, long time  
And all you've done still never changed my mind so please,  
try to love me please baby, try my love for you will never die

These flowers grow where I lay and rest  
and these colored blossoms darling, hold to your breast  
And darling I know it's my mind breaking out from inside my love for you will never die
