

# Robbie Williams, Get A Little High

Wake up in the middle of  
In the thunder of a scream  
And you realise that it was yours  
You don't know what to tell them  
'Cause you don't know where you've been  
And you've been there so many times before

It's only natural to feel like you're sinking  
It's only human to be so unprepared

Don't worry baby, if you get a little high  
It's just a phase to get you through getting by  
So you get a little restless and you get a little wasted  
It's just a little lite entertainment  
Embrace it, it might just save your life

You always say you're sorry  
But you never know what for  
And it's been happening more and more  
Act your age and not your shoe size  
And blah blah blah blah blah  
That's your role model slam the door

So it's only natural to feel the guilt of a nation  
It's only human when you're young you're gonna cry

Don't worry baby, if you get a little high  
It's just a phase to get you through getting by  
So you get a little restless and you get a little wasted  
It's just a little lite entertainment  
Embrace it, it might just save your life

So where else can you go to  
'Cause no one's given you the book  
About what to say and how to feel and what you  
Should and shouldn't have took

It's feelings that you're fearing that's why  
You step outside your mind  
Don't look back 'cause if you don't crack  
You get to sing this lullaby  
You get to sing this lullaby

Don't worry baby, if you get a little high  
It's just a phase to get you through getting by  
So you get a little restless and you get a little wasted  
It's just a little lite entertainment  
Embrace it

Don't worry baby, if you get a little high  
It's just a phase to get you through getting by  
you do lots of complaining and do nothing to change it  
well that's a little light entertainment  
Embrace it, it just might save your life  
Or it just might change your life
