

# Robbie Williams, Love Foolosophy

Baby, baby i feel this sweet sensation  
Honey Honey looks like a superstar  
shes got a promise of lovestruck fascination

What am i to do?  
How am i to know?  
Who are you. She shimmers  
like a california sunset  
honey, honey glitters but  
theres no gold she carries  
sweetly infectious magic  
formulas, so delerious  
is she that serious? is she bringing me on?  
Ive been waiting so long

And this love, fool, osophy  
is killing previous illusions that i had in my mind  
about you seems so true  
all the lies your telling tragically compelling  
and my love means nothing to you so  
maybe im still a love fool  
i dont want to be a love fool  
i dont want the world  
i want you!
