

# Robbie Williams, United

You sit and scream at all the scandal  
That put the monkey on your back  
Don't put your idols on a mantel  
You'll only want your money back

Don't slap my face and call me brother  
Lend a hand and knock me out  
So one disciple to another  
What's this really about

Are we united?  
'Cos I'm really not that sure  
When you've decided  
Spread some love and ask for more

I sit and think about my maker  
And what he's got in store for me  
I wanna be a right-on daddy  
Protect my wife and family

Are we united?  
'Cos I'm really not that sure  
When you've decided  
Spread some love and ask for more

Are we united?  
'Cos I'm really not that sure  
When you've decided  
Spread some love and ask for more

Runnin' out of love  
Got a pain in my head  
It's bringing me down  
God send me something

Got a gun on my hip  
Real tight grip  
Don't give me no lip  
Boy send me something

When a woman needs a man  
Man do what you can  
Lend them a hand  
And send them something  
Send them something

Are we united?  
'Cos I'm really not that sure  
When you've decided  
Spread some love and ask for more

Have you decided  
To spread some love and ask for more

Have you decided  
To spread some love and ask for more
