## Robert Cichy, Smack (Męskie Granie Young)

Johny Student was a keabord key and hold himself with a pian string but when he left he play his beloved song MGMIE the chords was so strong

when he listen his favorite guitar he feel like Johnny Cash a cowboy with the star of his chest and fuck the rest sighs he tells you how JD is going down

when he broke a Jacky's glass everything started going back he felt sober but his heart was dead when his wife was taking care of him no more Julian just straight without the ... he lost his faith

only a keyboard stayed close to his heart he needed only one string to make his own art

we are just like worms in the... when we lose control now one cares about dead we can play .by the rest is outside never car much that the people died

that's how you play that's what they say that's how you play that's what they say
