

# Robert Cray, No One Special

They say don't bother  
It's just a game

She's hard to follow  
She'll bring you pain

I'm no one special  
But one thing I know is true  
I try my best to please her  
Though I know I never do

She wants the life of wealth and fame  
She's got my soul  
It's such a shame

You see, 'cause  
I'm no one special  
But one thing I know is true  
I try my best to please her  
Though I know I never do

Don't drive a fancy car  
Like you're used to  
But I've got this great big heart  
Won't that do?

I'm no one special  
One thing I know is true  
I try my best to please her  
Though I know I never do

I'd give my all to be with you  
But I'm just on call  
Things fall through

You see, 'cause  
I'm no one special  
But one thing I know is true  
I try my best to please her  
Though I know I never do

You know that I  
Try my best to please her  
Though I know I never do

Oh, I'm no one special  
But one thing I know is true  
I try my best to please her  
Though I know I never do
