

# Robert Cray, The Dream

Last night  
Once again I had the dream  
I tossed and I turned  
That old feeling's still the same  
It was so real  
I woke up cold and sweating  
I wonder did I call her name?

In the dream she was right there with me  
Right there with me in the bed  
She said, "Bobby, come and kiss me"  
&"Never leave me!" is what she said  
But when I reached out to hold her  
Oh, I woke my wife instead

Once againnnnnnnnn!  
Once again, I had the dream  
Six years since I've seen her  
Ain't no doubt about what it means, no, no  
I tried hard not to think about her  
But all she left me was this dream

All she left me was the dream  
All she left me was a dream  
A dream

All she left me was the dream  
I dreamed I called her name  
I dreamed I held my baby in my arms  
Oh, what a dream!
