

Robert Downey Jr., Broken

In love with a broken heart
You fell in love with a broken heart

Love in these modern times
There'll be someone new everynight
With some other love yarn
To wrap my harms around
No one else can understand
(trust me) not about you
(hold me) i cant hear you

In love with a broken heart
You fell in love with a broken heart

-think i leave today,i cover it all this way-

-every earthly breath, a lifeless testimony-
In love with a broken heart
(dont you know)

Love in these modern times
I'll become what your first class said
Fink i'll grab some magazine
I'm no light weight, I'll find time to throw us down
You'd feel my medicine's side effect

(promised you) you believed me?
(i know you) never seen me

-think i leave today,i cover it all this way-
In love with a broken heart
You fell in love with a broken heart
-every earthly breath, a lifeless testimony-

-another lifeless testimony
You fell in love with a broken heart
(and it shows)

Oh please machine, let's keep this terminal clean
I'll see your face in every cloud
Fly girl shouts to keep it down
Down a Dewar's laugh out loud

Paddy's wagon draws a crowd
(save your days) i dont save days
(any way) i think...leave days

God grant me the strength to accept the things I can change
And change them
(just for the last time)

(show me) i cant miss you

In love with a broken heart
-face in every cloud, makes me laugh out loud-
You fell in love with a broken heart
(dont you know)
-shouts to keep it down, wagon draws a crowd-
In love with a broken heart
-lifeless testimony-
You fell in love with a broken heart

(and it shows)

-lifeless testimony-
In love with a broken heart
-in these modern times, what your first class said,
Time to throw us down, medicine's side effects
