

Robert Kramer, Place In My Heart

There always was a time that I remember
There'll never be a time when I'll forget
Of how I loved you so, and all the things I've done That I regret
And every single night before I close my eyes
I send a little prayer to where you are
And when the moonlight shines
It shines with the light from your star

There'll always be a Place In My Heart for you
There'll always be a Place In My Heart for you
And every single moment you are in my heart
I quickly fall apart from this
Place In My Heart

I remember every word our hearts had spoken
I remember every time you made me smile
Our love was such a precious thing
That time apart could not defile
I couldn't ever say enough to tell you
How much your love had made me whole
And if I had one wish I'd wish these words
Could fill my empty soul

There'll always be a Place In My Heart for you
There'll always be a Place In My Heart for you
And every single moment you are in my heart
I quickly fall apart from this
Place In My Heart

And every moment well, I wish that you were here
To hold you, and take it from the start
I long to tell you all the things that left this
Place ?In My Heart, In My Heart

There'll never be a time I can't remember
When your precious love would shine my way
And how the sun don't shine so brightly
Since the day you went away

And every single night when there's a full moon
I send a silent prayer to where you are
And hope that maybe you are looking up to
See my shining star
