

Robert Kramer, Wouldn't You Like To Feel That V

So many years have passed, I wonder where they've gone
Seems like a million years ago
So many times we've been together in our hearts
No matter who we're with, no matter where we go

Wouldn't you like to go back?
Wouldn't you like to feel that feeling?
Life was so much easier
When our hearts were young and free
Wouldn't you like to close your eyes and fall in love again
Wouldn't you like to feel that way again?

There is a place in time I fell in love with you
It doesn't seem that long ago, oh-oh
The memories of you just keep coming back to me
No matter where I am, the love begins to flow

Wouldn't you like to go back?
Wouldn't you like to feel that feeling?
Life was so much easier
When our hearts were young and free
Wouldn't you like to close your eyes and fall in love again
Wouldn't you like to feel that way again?

Long, long ago, and so far and way back when
I long to feel that feeling once again, once again...

So many years have passed, I wonder where you are
And if our hearts will meet again, woah-oh-oh
Wouldn't you like to be the way like we were way back then
Wouldn't you like to feel that way again?
Oh-oh-oh
Wouldn't you like to feel that way again?
