

Robert Miles, Freedom

All my life I have searched for clues
This is what they taught me
Every mystery I pursued
Was a secret I already knew
Deep down you know - in your soul
Love is in control
Oh - if you could find the angel within
Time - time to have faith in your wings

Free everybody's free
In the new day that's coming
Freedom for all - is our destiny - yeahh

Every stone that I left unturned
Soon came back to haunt me
Every fall, every finger burned
Was a step on the road to the truth
That I am you - in my soul
You are not alone
Oh - when your heart is turned to stone
Love - love is the only way home

Free everyone's free
In the new day that's coming
Freedom for all - is our destiny

Free everything's free
In the new day that's coming
Freedom for all - is our destiny - destiny

Free everyone's free
In the new day that's coming
Freedom for all - is our destiny

Free everything's free
In the new day that's coming
Freedom for all - is our destiny - destiny

Freedom for shame
Freedom from fear
Freedom to live - it's your right to be here

In the new day that's coming
Freedom for all - is our destiny - destiny - yeahh
