

# Robert Palmer, Captured

(E Lewis)

Easier said than done  
I should have known that the best was yet to come  
As the object of my affection  
Would I dare confess to you?  
Fantasies that haunt me  
Dreams of how our passions could be set free  
Magic nights we'd share  
I never knew you'd care  
Quite like you said you did  
You captured my heart  
How many times did I try to say  
It will be easier just to walk away  
But at the mercy of my obsession  
Didn't dare confess to you  
How I long for you to want me  
To my fantasies you hold the key  
Passions that we'd share  
I never knew you'd care quite like you said you did  
You captured my heart  
You dazzled me blind  
Oh we're flying high  
A perfect love to find  
You captured my heart  
Oh please say you want to stay with me forever  
How I long to kiss your lovely face, pretty baby  
Every night you haunt my dreams  
There's no need to fantasize, you're here with me  
Since I captured your heart  
Captured captured my heart  
Captured my heart  
Captured captured my heart  
Captured my heart  
Captured captured my heart  
Captured my heart  
Captured captured my heart  
Captured my heart
