

# Robert Palmer, Happiness

Take a gamble with your heart  
Take a chance on happiness  
Odds are on your better half  
You'll be glad you placed the bet  
Think it over - what's to lose?  
All the odds are in your favour  
Play your cards right - no excuse  
You know life is what you make it  
Scared to move case you get shortchanged  
But nothing venture, baby - nothing gained  
Take a gamble with your heart  
Take a chance on happiness  
Toss a coin or turn a card  
Time to give those blues a rest  
Play for keeps - bet your life  
I see loving in your future  
You'll never know if you don't try  
Missionary or kama sutra?  
If there's room for you to improve  
There's only one thing left for you to do  
Take a gamble with your heart  
Take a chance on happiness  
Take the plunge - leap in the dark  
Put your instincts to the test  
Take a gamble with your heart  
Take a chance on happiness  
Turn or leave me - coming start  
Find out what you like the best  
Take a gamble with your heart.....
