

# Robert Palmer, Know By Now

You ought to know by now  
Baby when our hearts awoke  
Think of all the rules we broke  
In the name of love we hoped  
Little did we know  
Darling all the time we spent  
Ignoring all the consequences  
And hiding from big evidence  
Hoping things would change  
But the yearning grew like the loneliness of a castaway  
To be near to you was the only thing in my heart each day  
Keeping me alive till your rescue came  
Honey you mean everything to me  
You ought to know by now  
Love means everything  
You ought to know by now  
Only love can bring happiness  
Wishful thinking spent in vain  
What to lose and what to gain  
All the guilt and all the pain seemed to come away  
And baby when our hearts awoke  
Think of all the rules we broke  
In the name of love we spoke  
Little did we know  
But the hope was there  
like a ray of sun on a cloudy day  
Any change from impossibility to the only way  
Love can conquer all  
And its here to stay  
Honey you mean everything to me  
You ought to know by now  
Love means everything  
You ought to know by now  
Only love can bring happiness  
You ought to know by now  
Love means everything  
You ought to know by now  
Only love can bring happiness  
You ought to know by now  
You ought to know by now  
You ought to know by now  
You ought to know by now  
You ought to know by now
