

# Robert Palmer, Wham Bam Boogie

Wham bam boogie, all night long  
Come on, move it, bang that gong  
You can't lose it, find the one  
Bass line screws it down, platinum

You're on overdrive and it's justified  
E-F-Gee whizz, you decide  
You're more qualified  
Let's push to the head of the cue

I've got my binoculars, wham bam boogie  
We left our scruples in the middle of the road  
And it's bad for us to leave them there

Money tends to do that to you  
Kick'em down, never let them say that, no, no

Wham bam boogie, all night long  
Stompin' music, rock that song  
Hey, let's improvise  
We might win a prize  
We need exercise, let's get paralysed

Wham bam boogie, groove on stun  
Stompin' music, rock that song  
Wham bam boogie, all night long  
Can't refuse it, it's too much fun
