

Robert Pattinson, Never Think

I should never think
What's in your heart
What's in our home
So I won't

You'll learn to hate me
Still call me baby
Oh lord
Just call me by my name

And save your soul
Save your soul
Before you're too far gone
Before nothing can be done

And I sat around
Shall I hold your hand?
I've got no fight in me
In this whole damn world
Tell you hold on
She said hold on

And it's one thing I know
Slip my coat off
And I'll know it's all wrong
She stands outside and holds me
She said, oh please I'm in love
I'm in love

Save your soul
Save your soul
Before you're too far gone
Before nothing can be done

Cause without me
You've got it all
So hold on
Without me you got it all
Hold on

Without me you got it all
Without me you got it all
So hold on
Without me you got it all
So hold on
Without me you got it all
So hold on
