

Robert Plant, Promised Land

Oh baby - can't eat, can't sleep, can't understand a love song
Drive me crazy 'cause my feet won't quit as I go slidin' in the sweet zone
Round round like you want me to do
Down down like you're beggin' me to
The floor's small and the wall's too steep
I can kiss your mouth when I go to sleep

Oh, baby, got those personal moves so deep inside my move groove
I go crazy - my head won't quit as I crawl inside your love groove
Down down like you want me to do
Round round like you're beggin' me to
The floor's small and it's much too steep
I can kiss your mouth when I go to sleep

I feel alright, 'cause my little girl wants to dance all night
What can I do - I know my little girl wants to dance with you

Oh darling, come on baby, come on and mess with me
Oh woman, I'll make it up to you, if you just drive me wild, child
Down down like you want me to do
Round round like you're daring me to
The floor's small and the wall's too steep
I can kiss your mouth when I go to sleep

I feel alright, 'cause my little girl wants to dance all night
What can I do - I know my little girl wants to dance with you
I feel alright - my little girl wants to dance all night
What can I do - I know that girl wants to dance, dance, dance

Round round like you want me to do
Down down you're beggin' me to
The floor's small and much too steep
I can kiss your mouth as I go to sleep

I feel alright, 'cause my little girl wants to dance all night
All my life - you know my little girl she wants to dance, dance, dance
I feel alright - my little girl she wants to dance all night
What can I do - my little girl wants to dance
