

Robert Plant, Red Is For Danger

Can you feel my heart beat?
Across a crowded room
Oh, why don't you get close to me?
Gonna taste the cheap perfume
Can you feel my eyes on you?
Why don't you look my way?
Hmm, I've come to not talk - too late soon
Ain't gonna need to say

Red for danger - green for go
Dancing in the danger zone
I've got your number - got something that you need to know
Red for danger - green for go
All dressed up - nowhere to go
Look at me now, dancing in the danger zone

But what you see there
Through my open door
Wanna get you running scared
And having to take you by force
Am I coming on strong with you?
Can you see through my disguise?
You know what I wanna do, babe
Take a look through my eyes

Oh, it's red for danger - green for go
Dancing in the danger zone
I've got your number - I've got something th

Red for danger - green for go
All dressed up - nowhere to go
Look at me now, dancing in the danger zone

Oh, red for danger - green for go
Dancing in the danger zone
I've got your number - got something that you need to know
Red for danger - green for go
All dressed up - nowhere to go
Look at me now, dancing in the danger zone
In the danger zone
In the danger zone

Red for danger - green for go
Dancing in the danger zone
I've got your number - I've got something that you need
Red for danger - green for go
All dressed up - nowhere to go now
Look at me, look at me now,
Dancing in the danger zone
The danger zone, oh
Red for danger, oh
Green for go
Red for danger, oh
Green for go
