

# Robert Plant, Watching You

In sleep I am drawn - I feel guilty at dawn  
Come over the mountains, come over the sea  
Should my darkness prevail - does your memory fail?  
Oh love on the wing, carry my prayer  
Cherish this moment in times of despair  
Over the mountains, over the sea  
Angel of love, come back home to me

Are your kisses so warm - can you carry my storm?  
I look at the moon and you're gone  
Love on the wing, carry my prayer  
Cherish this moment in times of despair  
Over the mountains, over the sea  
Angel of love, please come on home to me  
Come back home, come back home, come back home

Love on the wing, carry my prayer  
Cherish this moment in times of despair  
Over the mountains, over the sea  
Angel of love, bring it back home to me  
Come back home to me

I see my disgrace - can I touch you right now?  
From this beautiful place  
I see my disgrace - can I touch you right now?  
I'm tired of watching you  
Oh, I'm tired of watching you
