

Robert Randolph & The Family Band, Thrill Of It

Some people are looking for the fountain of youth
And others are lookin for some kinda truth
Some people like to sit in darkness
And others like to light up a fire storm ???

We got to get out to believe
Tomorrow is never guaranteed

It might hurt just a little bit
While I'm tryin' to figure it out
I'm on this ride for the thrill of it
Livin' the dream that's what life's all about

Workin' it out

Some people say I live in the turnpike
And others say you cause what you're feelin' like
People like to pose like they're hardcore
And others stand around like they did before

We got to get out just to see
Tomorrow is all we'll ever need

It might hurt just a little bit
While I'm tryin' to figure it out
I'm on this ride for the thrill of it
Livin' the dream that's what life's all about

It might hurt just a little bit
While I'm tryin' to figure it out
I'm on this ride for the thrill of it
Livin' the dream that's what life's all about

Workin' it out
