

# Robi Rosa, California

You said you'll always be around.  
But lately, I see you above a cloud  
You said I'm always playing games,  
nothing is the same anymore.  
So you are, you'll always be  
the girl who loves a man,  
the way a man should be.

I can't believe what I've seen  
cause I believe in you,  
a California girl.  
You remind me of all the things that were.  
It doesn't matter anymore  
cause now you are a movie star

Tell all the people that you moved on  
Tell them that you were loved before by me,  
we don't understand each other anymore,  
you are always on my mind.

I can't, you are out of reach, California girl.

Oh she, I know she love  
Oh she, she is just a little crazy  
'cause you are, you'll always be  
the girl who love a man  
the way a man should be.
