

Robin Schulz, One By One - feat. Topic, Oaks

Come keep me up, this one's for us
Pour up the memories one by one

You hide in the shadow
Closest fever dream
Neon lights are lining down the street

You're not in the backseat
We got all we need
Don't say that I don't feel a heartbeat, heartbeat

Come keep me up, our night is young
Pour up the memories one by one
Come keep me up, our night is young
Pour up the memories one by one
Come keep me up
Come keep me up

[?] in the city
Every kinda dream
Stay right here forever, never leave (Don't leave)

You're not in the backseat
We got all we need
Don't say that I don't feel a heartbeat, heartbeat

Come keep me up
Come keep me up
Come keep me up
Come keep me up
Come keep me up
Come keep me...

Come keep me up, our night is young
Pour up the memories one by one
Come keep me up, our night is young
Pour up the memories one by one
Come keep me up
Come keep me up
Come keep me up, our night is young
Pour up the memories one by one
Come keep me up, our night is young
Pour up the memories one by one
