Robyn, I Wish (A Cappella)

Do u know What I think about all these nights When I can't sleep Sleep at all Oh slowly I close my eyes My thoughts they fly away to you No matter what I do And wish I could turn back time Back to the time when you were mine And I wish I wish the day, the day you went away Never happened baby I wish the stars, the stars and heaven Would come down to me So I could give them to you And tell then would u be loving me like I wish

And it's so hard When you love someone this much But you just don't know how How to love him the right way If you could see What you've done to me What you've done to my heart What you've done to me soul Baby all of my mind and all of my body Then you should know Why I can't let go And baby I I wish the day, the day you went away Never happened I wish the sars, the stars and heaven would come down to me So I could give them to you And tell me then would you be Loving me like I wish

I don't know what you want me to do
To prove my love is real for you
I don't know what you want me to say baby
There is no if's or maybe's
All I want is you
Cause baby you are my only wish
Oooo, my only wish
