## Rocco & Bass T, Alright

I don't wanna be the one The one who's always left behind Will there ever come a day When I can turn around and say I don't wanna be the one The one who's always left behind Will there ever come a day When I can turn around and say It's alright now! It's alright now! It's alright now! I don't wanna be the one The one who's always left behind Will there ever come a day When I can turn around and say I don't wanna be the one The one who's always left behind Will there ever come a day When I can turn around and say It's alright now! It's alright now! It's alright now!
