

# Roch Voisine, Shout Out Loud

Well I've been some places  
And seen lots of faces  
facing towards the distant light  
Now I hear people laughing  
And see people smiling  
All over the news tonight  
Oh I see new generations  
Bringing new vibrations  
They're skilled and they do things right  
I see you and me  
Loving to be free  
So come along and make things bright

Chorus:  
Me all I've got  
It's just a little singing now  
If you wanna be part of it  
Just hold your hands and  
shout out loud  
shout out loud

So we followed the traces  
And we filled up the places  
Looking for a better sight  
Now we see strong bonding action  
Tween people of the nations  
No matter if they're black, red or white  
And we see people trying  
Giving all their loving  
Giving everything they've got  
And there's you and me  
Loving desperately  
Open up your heart  
And let's see some light

Chorus:  
Me all I've got  
It's just a little singing now  
If you wanna be part of it  
Just hold your hands and  
shout out loud  
shout out loud

You say no way  
Well just look around  
Can't you see that love  
Can bring us around

Chorus:  
Me all I've got  
It's just a little singing now  
If you wanna be part of it  
Just hold your hands and  
shout out loud  
shout out loud

Shout out loud  
Shout out loud  
No more tears  
No more tears  
Shout out loud  
No more cries  
Shout out loud  
No more cries

No more cries  
Shout out loud
