

Roches, Quitting Time

Money is not the problem
you have enough of that
now you must close your office
put on your coat and hat
put on your coat and hat

Now is the hour of quitting
twilight paints the town
Old industrial skyline
how does the sun go down?
how does the sun go down

You can go south in winter
be what you are a goose
you can live near the ocean
your clothes can fit you loose

Even as you are leaning
into that glass of wine
you and beloved business
have come to the end of a line
come to the end of a line
