

# Rock Kills Kid, Hope Song

The rain drops  
Pour off the roof again  
They fall down, down  
Down upon me  
I won't let it get me down  
There's something for me here  
I'm gonna give it one more try

Chorus  
Because I gave it all away  
And I'm still standing  
Threw my world away  
I'm still standing  
Whoaaa...  
And I gave it all away  
I'm still standing

In the sky  
I feel, I feel disaster  
Coming towards me  
I won't let it get me down  
There's so much left to live  
I'm gonna give it one more try

Chorus

Instrumental

The rain drops (Found out hooowwwww)

Because I gave it all away  
And I'm still standing  
Threw my world away  
And I'm still standing  
Sing me a love song  
And I'll sing with you  
Because I gave it all away  
But I'm still standing

I gave it all away (4x)
