

# Rock n roll soldiers, Leave This Place

I never know what to say and I don't look good in suede  
Stand up for confidence do I have friends or are they pretend  
Well I don't care and maybe I'm a waste but could you love me  
Anyway

Through the darkness we stumble hand in hand  
And I say fuck em all cause they don't understand  
And I keep telling everybody lies but this is the end  
When I leave this place I won't come back again  
So we climb out on the roof

And as we sit here tooth to tooth  
Well she's all eyes and they're lighting up  
And we've got violence running through our blood  
Through the darkness we stumble hand in hand  
And I say fuck em all cause they don't understand  
And I keep telling everybody lies but this is the end  
When I leave this place I won't come back again  
When I leave this place I won't be back again  
To another place no so long before

And like a summer rain I can't come back no more  
Through the darkness we stumble hand in hand  
And I say fuck em all cause they don't understand  
And I keep telling everybody lies but this is the end  
When I leave this place I won't come back again  
When I leave this place I won't be back again
