

Rock N Roll Worship Circus, Gift Of Cool

i remember the day when the love of God
landed in our town
He took all the silent and broken hearts,
fixed them up and gave them a sound
you had almost every different kind of
kid from every different kind
of social background
taking all the cool they had and praising
God, as He spun them around
when God came to town
and the people in our churches, they were
constantly amazed
at the kids kneeling at the altar with their
different fashion flavors
you had squares, preps, and skater punks,
goths and techno-ravers
and the tattooed kids with colored
hair... and they were all getting saved
you think the 60's had good vibrations?
well, check out my generation...

we will run and never stop
yeah, we all will stand together
taking everything we are
and then praising Him forever
well, anyone and everyone, come and
join us for a good time
we are breaking all the rules by praising
God with your Gift of Cool...

suddenly almost every kid in town had
finally found the way
to take all the gifts and talents and beauty
they had and worship God every day
man, you had all the high school parties,
and they were turning into worship raves
and the sounds of the underground in
town had turned into praise

when Your people sing, all of heaven
sings... so sing! is that cool?
lift your hands up to the sky
yeah, we all will sing together
taking everything we are
and then praising Hime forever
