

Rock N Roll Worship Circus, Love Colour

la la la...
love is the color, love...la la...

love is a color without gray
black as the nighttime and white as day
i know a secret i can tell
if you wanna know God,
you can know Him well
so know Him well

love is an area bigger than space
goes forever, full of grace
i know a secret, a secret place
if you wanna see God, just look for His face,
look for His face

if you've got patience, take it slow
but if you wanna run, then go, baby, go
'cuz there's no limit to the love you can know
the more you look at Him,
the more you glow - so go, baby, go
