

Rock N Roll Worship Circus, Your Crown

When I fly
You are with me
When I fall
You fall down with me
Me
Through the shine
I will go
To the high
From the lowest low
I know

When I see Your crown
I will lay mine down
Down
And I will go to the place
I have found
Where I can move Your heart
With sound

Friend
My Beloved
You are here
You will always be
Friend
Through the cloud
There's a glow
You will shine
Like the brightest star
Already are
