

Rock Star Supernova, Be Yourself (And 5 Other Cliches)

Be yourself
and not somebody else
it might take some little effort
and maybe just a little help
but you can figure it out
if not
just do what everybody else does....

Oh, keep it on the level (if that's what I'm supposed to)
keep on the level (if that's the thing im told to)
I keep on getting in trouble
if I try to take this side of the road

So here's your hey hey hey (hey!), here's you ho ho ho (ho!)
I don't know where else to go
There's a really fine line between what's yours and what's mine
it's a line that I don't want to toe...
I'm sick of being haunted by every cliché that I know

Keep it real
whatever that means
even if your so young you've never seen a limousine
your gonna one day
just remember
never get in
and don't give up
'cause you know people are gonna care
if you just stop trying
and accept every dare
and if you can't seem to make it

maybe, maybe you should just try failure

Oh, keep it on the level (if that's what I'm supposed to)
