

# Rock Star Supernova, Leave The Lights On

I'd like to say for the record that I like how you walk  
And how the all other girls shut their mouths when you talk  
Your body's so black and your mind is too  
I want to make a good connection when I plug into you

So come on and leave the lights on if that's your thing  
It's better for the cameras if you know what I mean  
So come on and leave the lights on if you want to see it all  
'cause everything else in the room is gonna be off

I want to feel like a kingdom when I come into you  
I want to kneel at the alter your body dances to  
I need to speak three languages all just to prove  
That I am all E Bell FK (??)

I love the way that you move

So come on and leave the lights on if that's your thing  
It's better for the cameras if you know what I mean  
So come on and leave the lights on if you want to see it all  
'cause everything else in the room is gonna be off

I want a dirty little girl with the wife beater on  
With the straps fallin off of her shoulders

So come on and leave the lights on if that's your thing  
It's better for the cameras if you know what I mean  
So come on and leave the lights on if you want to see it all  
'cause everything else in the room is gonna be off
