

Rockapella, On The Last Night

Verse 1

Go back in the first night,
Back to 'round midnight
The kiss would not end
Start with that New Year off right
Why can't we start this one?
Whether we didn't feel the way we felt

(Chorus)

On the last night
Let the first one live in her eyes
Gimme one more chance to make it
On the last night
Can't we stop before the love dies?
Whatever you do- don't let this be the last

Verse 2

Meet me half-way cross the sky
Back to what happened
Where you had me whirled
Must be something we can try
Tell me what, I'll try it baby
Whatever it takes to feel the way we felt

(Chorus)

On the last night
Let the first one live in her eyes
Gimme one more chance to make it
On the last night
Can't we stop before the love dies?
Whatever you do- don't let this be the last

Maybe I can survive and try
To forget you (love the way we loved)
All I see is a love we'll never get to

Whoa whoa whoa, oooh....
Maybe I can survive and try
To forget you (love the way we loved)
All I see is a love we'll never get to
Whoa whoa whoa whoa....

(Chorus)

On the last night
Let the first one live in her eyes
Gimme one more chance to make it
On the last night
Can't we stop before the love dies?
Whatever you do- don't let this be the last

Don't let it be, bum bum ba dum.....
(repeat 17x)
