

# Rockapella, That's The Way

(Chorus)

Let me know baby  
That's the way I feel about you baby  
That's the way I swear I will be true  
Ain't no way I could ever leave you now I know

Can it do with a look or touch  
Gotta let you know how much  
Show me someday I could get next to you  
Should I start with something nice  
Baby name your price  
No need too big if it gets me through

Right across the sky a thousand reasons why  
Just the way should be your own and then  
Baby I'll do anything it be your heart say  
Let me know what's it gonna take

CHORUS

Monte Carlo, Tokyo  
Anywhere you want let's go  
First class just ask we'll leave right now  
Never been a poem guy  
Baby you know I'll try  
Shakespeare my dear I taught him how

I'll fly through outer space and search out any trace  
Imagine it could make you mine  
Baby I'll do anything it be your heart say  
Let me know what's it gonna take

CHORUS (2X)

Within a minute you'll melt inside  
Feel the fingerlicks of mine (fill my heart)  
Without a sound secret agent style  
Tell this silent world to fall

CHORUS (2x)

That's the way I feel
