

Rockapella, That's The Way

(Chorus)

Let me know baby
That's the way I feel about you baby
That's the way I swear I will be true
Ain't no way I could ever leave you now I know

Can it do with a look or touch
Gotta let you know how much
Show me someway I could get next to you
Should I start with something nice
Baby name your price
No need too big if it gets me through

Right across the sky a thousand reasons why
Just the way should be your own and then
Baby I'll do anything it be your heart say
Let me know what's it gonna take

CHORUS

Monte Carlo, Tokyo
Anywhere you want let's go
First class just ask we'll leave right now
Never been a poem guy
Baby you know I'll try
Shakespeare my dear I taught him how

I'll fly though outerspace and search out any trace
Imagine it could make you mine
Baby I'll do anything it be your heart say
Let me know what's it gonna take

CHORUS (2X)

Within a minute you'll melt inside
Feel the fingerlicks of mine (fill my heart)
Without a sound secret agent style
Tell this silent world to fall

CHORUS (2x)

That's the way I feel
