

Rocket From The Crypt, Bring Us Bullets

Slash out the windows
The curtains are drawn
Lock down the compound
Bolt it and guard
Divided and conquered
Then booted to space
Beg for survival
On the planet of race
Come on!

Was Darwin a Nazi
Evolved into hate
A hypnotized monkey
Confusion as bait
Let go the ego
And watch the bricks fall
The fossils keep talking
So burn the remains

And bring us bullets, bullets...
Shoop, shoop, please come again
Ah bring us bullets, bullets...
Shoop, shoop, your new friend
Ah bring us bullets, bullets...
Shoop, shoop, please come again
Ah bring us bullets, bullets, bullets, bullets...

Slash out the windows
The curtains are drawn
Lock down the compound
Bolt it and guard
Divided and conquered
Then booted to space
Beg for survival
On the planet of race

And bring us bullets, bullets...
Shoop, shoop, please come again
Ah bring us bullets, bullets...
Shoop, shoop, your new friend
Ah bring us bullets, bullets...
Shoop, shoop, please come again
Ah bring us bullets, bullets, bullets, bullets...
Whoo!
