

# Rocket From The Crypt, I'm Not Invisible

Oh I wanna go, yeah we gotta leave it right now  
Opportunity knocks so let's barge on in  
Oh I wanna beat the door down just to look inside  
Our vital signs look good but our chances are slim, way grim  
So I killed it anyway, I killed it anyway  
Stand back, look proud and tall  
Be afraid of what you see and not attack  
I'm not invisible...

Oh I gotta go, yeah we gotta leave it right now  
When opportunity knocks let's barge on in  
The sour truths and the vengeance sweet  
Memory is full but nothing to keep  
So pull back those dirty sheets  
Let's see that wet spot now  
So I killed it anyway, I killed it anyway  
Stand back, look proud and tall  
Be afraid of what you see and not attack  
I'm not invisible...
