

# Rockfour, Government

Unhappy chords you better count the seconds  
It's gonna crack, collect the dirty matters  
Surrender to the old addictions  
Look at yourself, a copycat with no religion  
That's what you are

The choice you've made within the circumstances  
Citizen kane, you are like stormy weather  
Electric heads and fashion t-shirts  
No acts of innocence  
Your face is on the television  
Look what you've done

The blame's on everyone

Here it goes again  
Isn't it time to change the government?  
Here it goes again  
Isn't it time to find our innocence?

The money's gone, the money's gone  
You better switch off the lights  
Look out, you'll never make it  
Using only escalators, private aeroplanes  
A twisted life of contradictions  
It's suicide

the blame's on everyone

Here it goes again  
Isn't it time to change the government?  
Here it goes again  
Isn't it time to find our innocence?

Automatic information  
Fast communications turning right  
Pornographic windows  
Hell, you are approaching fast to second twenty-one

Here it goes again  
Isn't it time to change the government?  
Here it goes again  
Isn't it time to find our innocence?
